# INDUSTRIES WE SERVE

## INDUSTRIAL CLIENT PARTNERS

G-Force understands that efficiencies in operations are what sets industrial clients apart from their competition. We offer customized buildings, fabrication and labor solutions to meet these unique needs. Our Building division consists of a design-build team who works with you every step of the way. If you need a facility designed from the ground up, we are fully equipped to offer our creative and functional expertise. Once you have designs in hand, we then handle the entire build process from the civil & ground work, to the electrical & mechanical and all the way down to the paint & doorknobs.

## COMMERCIAL CLIENT PARTNERS

G-Force has experienced teams who understand the complex and diverse needs of commercial developers. Our Buildings division partners with our commercial clients to provide creative & innovative designs, customized for any business need. Our build team is also able to manage your entire project from the foundation to fixtures and all in between. This approach allows our clients to focus on other aspects of their growing business while trusting G-Force with managing the build.
