# COMPANY HISTORY

## WE BELIEVE EXCELLENCE IS NO ACCIDENT.

The name G-Force is rooted in this history because buildings are meant to permanently defy gravity. G-Force, gravitational force, is a constant in our world. The name G-Force was chosen because of those very reasons. First, like gravity, G-Force intends to be in business for its client partners for a very long time. Second, G-Force believes in its company capacity to build buildings, compressor stations, meter stations, plants, pipelines, vessels, structural steel and many other items, which regularly stand up to the strongest forces in nature and stand the test of time. Welcome to the Force.

In the early 2000s two men took a risk to go into business for themselves. Having extensive experience in the construction and energy sectors, it made sense to start with metal buildings for industrial and oil and gas companies. G-Force has since grown into a company with many divisions and a large client base. While a large portion of clients fall within the oil & gas industry, G-Force prides itself on our ability to support a large range of industries including general commercial, industrial, and refinery & chemical plants.

At the core of our business beliefs is that our employees and customers are a part of the G-Force family and you still experience these business ethics and culture today. Even after expanding nationally with projects spanning the United States, G-Force remains committed to maintaining the excellence in quality and personal service our employees, customers and communities have come to know and expect.

**EXCELLENCE IS NO ACCIDENT**

**AT G-FORCE, OUR VISION IS TO BE  
THE PREMIER PARTNER IN THE MOST  
CHALLENGING PROJECTS.**

Our core values are: BE SAFE. BE POSITIVE. DO IT RIGHT. OWN IT! This is the foundation G-Force was built upon and those values continue to guide our leadership, affect our actions, influence our decisions, and allow us to best serve our clients.

**BE SAFE.**

We are committed to performing all operations with the highest regard for the safety of all on site personnel, assets, and the environment. Understanding that our employees are our most valuable resource, we focus intensely on critical safety processes.

**BE POSITIVE.**

Our employees are motivated, driven, and passionate for success. We arm our employees with resources and training, and encourage information sharing creating a positive problem solving atmosphere. We look at challenges as opportunities and possess “Yes I Can” and “Yes I Will” attitudes.

**DO IT RIGHT.**

We operate with the highest level of ethics, integrity, safety, and trust when dealing with our employees and clients. We partner with, and support the communities in which we work by giving back and minimizing our footprint.

**OWN IT!**

We take complete ownership in all aspects of our work. The results of our work is as personal to us as it is to our clients. This is what drives excellence and what our reputation was built on.

# WE ARE FACILITIES

G-Force excels in new construction, expansions, modifications and maintenance for upstream & midstream client partners. We are committed to delivering the highest quality of service. We enjoy solving some of the toughest challenges, as our dedicated and experienced crews are driven to bring projects in on time and under budget. All activities are performed with an emphasis on safety and utilizing G-Force core values.

- ▲ Compressor Stations
- ▲ Meter Stations
- ▲ Oil Storage Facilities
- ▲ EOR Piping
- ▲ Vapor Recovery Units
- ▲ Flair Piping And Installs
- ▲ B-Tex Units
- ▲ Slug Catchers Install & Fab
- ▲ Contact Towers Install
- ▲ Gas Scrubbers Install
- ▲ Condensate Stabilizers Install
- ▲ SWDs
- ▲ Poly Fab
- ▲ Start Up Support
- ▲ Facility Take Downs/ Bag And Tag
- ▲ Platform And Crossover's  
Fab & Install
- ▲ Tank Sets And Catwalk  
Assemblies
- ▲ Cryogenic Facilities
- ▲ Admin Facilities
- ▲ Green Field & Brown Field  
Construction
- ▲ Pipe Fabrication Carbon  
or Stainless
- ▲ Pipe Installation
- ▲ Pipe Insulation
- ▲ Pipe Painting
- ▲ Hydrostatic Testing
- ▲ Hydraulic Torque
- ▲ Structural Fab And Install
- ▲ Civil Concrete & Piers
- ▲ Civil Dirt Work
- ▲ Equipment Setting And  
Trim Out
- ▲ Compressor Fall Off Piping
- ▲ Trucking And Transportation

# WE ARE PIPELINE

G-Force excels in the new installation of steel, poly, and flex-steel lines, as well as the replacement and repair of existing lines for our upstream and midstream client partners. Our seasoned team of superintendents and project managers oversee experienced crews dedicated to working within today's stringent pipeline parameters. Our positive attitude towards challenges, strong emphasis on safety, and our commitment to serving the needs of our clients upholds our success. We regularly evaluate our internal processes in order to maximize their effectiveness and efficiency, making adjustments as needed for continual improvement.

## G-FORCE PIPELINE SOLUTIONS

- ▲ Pipeline Installation (Steel, Poly & Flex-line Steel)
  - Including Valves, Vaults, and Leak Testing.
- ▲ Pipeline Relocation, Maintenance, Repair & Replacement
- ▲ Smart and Caliper Pigging
- ▲ Anomaly Locating and Repair
- ▲ Pipeline Rerouting
- ▲ Hydrostatic Testing
- ▲ Painting
- ▲ Pipe location
- ▲ Project Procurement Services
- ▲ Emergency Response Leak Repair

# WE ARE BUILDINGS

G-Force is a nationally recognized builder of industrial structures. Our Building Division experts work hand-in-hand with each client to provide customized solutions for projects of all sizes. Fully understanding our customers specific needs allows us to design and construct high-quality, cost efficient structures. We are equipped to handle the complete scope of your building projects - from the civil, structural, mechanical, and electrical engineering aspects, to the building erection and its final touches.

## **G-FORCE BUILDING SOLUTIONS**

- ▲ Compressor Buildings
- ▲ Electrical Control Buildings
- ▲ Storage Facilities
- ▲ Warehouses
- ▲ Industrial Facilities
- ▲ Industrial Office Buildings
- ▲ General Commercial
- ▲ Manufacturing Facilities
- ▲ Medical Facilities
- ▲ Offices
- ▲ Portable Buildings
- ▲ Recreational
- ▲ And Much More

## **G-FORCE CONSISTENTLY WORKS WITH**

- ▲ Pre-Engineered Metal Buildings
- ▲ All Types of Masonry
- ▲ Advanced Civil Construction
- ▲ All Types of Metal
- ▲ All Types of Wood and Plastics
- ▲ Thermal and Moisture Protection
- ▲ All Finish Out Materials and Subs
- ▲ All Mechanical Subs

# WE ARE FABRICATION

At G-Force, we pride ourselves in providing the highest quality craftsmanship. Our ASME code certified fabrication shop specializes in various types of projects ranging from pressure vessels to electrical racks, stairs and platforms to portable skid mounted buildings. Our highly-skilled professionals are able to work directly with our clients to design and engineer custom fabrication of items they envision, as well as fabricate pre-designed and engineered items to the specificity of our clients.

In 2020 upon receiving our R and U certifications, we expanded to include fabrication of new pressure vessels and repair of existing pressure vessels. We offer this service for new & existing customers in the E&P, Midstream, Chemical and Refinery industries.

Nearly all fabrication projects take place in our state-of-the-art 25,000 square foot shop. Our shop teams are provided with the highest-grade equipment and materials in-house, including heavy equipment lifts and overhead cranes ranging from 7.5 ton to 20 ton. This model for project design and construction provides significant quality control and safety benefits over field construction. We are also able to reduce potential time and cost-loss due to weather delays.

We also have an in-house trucking group and are able to deliver large items or full truck load items without relying on an outsourced party.

## PRODUCTS:

- ▲ Non-Code and Coded Vessels
- ▲ Structural Steel Packages – Pipe Racks/Supports
- ▲ Platforms and Crossovers
- ▲ Electrical Racks
- ▲ Sump Tanks
- ▲ Production Skids
- ▲ Meter Runs
- ▲ Slug Catchers
- ▲ Stairs and Railings
- ▲ Custom Steel Fabrication
- ▲ MCC/PDC Buildings
- ▲ And Much More

# WE ARE LABOR SOLUTIONS

G-Force offers complete, customized contract labor solutions. From recruitment and prospect identification, to full contract employment, our experienced team is dedicated to solving your staffing needs.

We target top talent and validate qualifications, identifying top candidates for our client partners. All administrative duties for our contract labor are managed by G-Force and we provide an excellent benefits package. In addition, the acquisitions of trucks and unique equipment needs for each employee are handled by our team.

## **G-FORCE LABOR SOLUTIONS:**

- ▲ Compressor Technicians
- ▲ Lease Operators
- ▲ Plant Operators
- ▲ I&E / Automation Technicians
- ▲ Pipeline Operators
- ▲ Safety Champions
- ▲ Inspectors
- ▲ Operations Consultants
- ▲ General Laborers
- ▲ Swd Operators
- ▲ Compressor Operators
- ▲ Corrosion Technicians
- ▲ Measurement Technicians
- ▲ Administrative/Office Personnel

## **EQUIPMENT/LOGISTICAL SOLUTIONS:**

- ▲ ½ & ¾ Ton 4x4 Trucks
- ▲ 1 Ton+ Technician's Trucks
- ▲ Customized Tool Packages
- ▲ PPE & FRCS
- ▲ Laptop & Cell Phone
- ▲ WiFi / Hotspots
- ▲ Cell Phone Boosters
- ▲ Housing
- ▲ Per Diem
- ▲ In-House OQ Training
- ▲ In-House Safety Training

# REFINERIES

The G-Force Refineries Division offers a comprehensive set of solutions for refineries and chemical plants, including construction, modifications, and maintenance. Our solutions include civil, mechanical, I&E, and construction. We are ready to assist clients with new construction as well as critical on-going maintenance to extend functionality, processing system upgrades, new technology, or changing product lines. Our crews adhere to stringent regulatory requirements and are able to adapt to rapid changing technologies. We provide turn around service during outages and annuals to minimize downtime, allowing our clients to maximize runtime and generate profits. We pride ourselves on providing quality solutions performed on time and under budget.

## REFINERY AND CHEMICAL PLANT SOLUTIONS:

- ▲ Fabrication And Pre-Assembly
- ▲ Maintenance
- ▲ Electrical And Instrumentation
- ▲ Pre-Shutdown
- ▲ Fire Protection Systems
- ▲ Industrial Air Systems
- ▲ Process Piping & Equipment Installation
- ▲ Structural Steel Support For Process Piping
- ▲ Underground Utilities
- ▲ Structure
- ▲ Vessel Repair
- ▲ Vessel Fabrication
- ▲ Exotic Materials
- ▲ Labor Solutions And Janitorial Services
- ▲ Station And Plant Construction
- ▲ Civil And Site Work
- ▲ General Fabrication Asme Coded S-U-R-NB

## EXCELLENCE IS NO ACCIDENT

“Working safe is about treating each person at G-Force as a member of your family. We will not ask anyone to do anything that I wouldn’t have a family member or myself do. Our leadership is committed to operating with the highest safety standards and continuously training our employees to ensure jobs are done safely each and every time.”

President and CEO  
G-Force & Associates, Inc.

## WHAT SETS US APART

“G-Force has been around for nearly two decades because of the values Jeff and I started with when it was a company of two guys; and those values still hold true today: Be Safe. Be Positive. Do It Right. Own It! I am so proud that we are now a company of hundreds of men and women who believe those same values and push us to be the Premier Partner for the Most Challenging Projects.”

COO  
G-Force & Associates, Inc.
